v této nabídce **1.340 Kč** vč. DPH
(tato cena platí při objednání titulu do 25.5.2014)

The world's leading programming author updates his internationally bestselling guide to Java, covering all the new features in Java SE 8. In *Java: The Complete Reference, Ninth Edition*, Herb Schildt uses the clear, concise, uncompromising style that has made the previous eight editions so successful worldwide. This comprehensive volume covers the entire language, including its syntax, keywords, and fundamental programming principles.

Schildt also presents detailed information about Java's core libraries and key programming techniques. Of course, coverage of new features added by Java 8, such as lambda expressions and modules, are included. Schildt also condenses material pertaining to AWT, shifting the focus to Swing and adding three new chapters on JavaFX, Java's GUI technology.

Comprehensive coverage - covers the entire Java language, its core libraries, and several important programming techniques, making this book a lasting resource for all Java programmers, from novice to experienced pro Fully updated for Java SE 8 - includes coverage of new features in, including modules and lambda expressions Free source code for all the examples and projects in the book is available for download In-depth details on core concepts supported by hands-on practice Dynamic code examples show key features in action.
