The SAGE Handbook of Human-Machine Communication

Edited by **Andrea L. Guzman, Rhonda McEwen & Steve Jones**

September 2022 • 756 pages
Cloth (978-1-5297-7392-7) • List Price: £120.00

The SAGE Handbook of Human-Machine Communication is the touchstone text for researchers and scholars engaging in new research in this fast-developing field. Chapters provide a comprehensive grounding of the history, methods, debates and theories that contribute to the study of human-machine communication.

Further to this, the Handbook provides a point of departure for theorising interactions between people and technologies that are functioning in the role of communicators, and for considering the theoretical and methodological implications of machines performing traditionally 'human' roles.
